Nuer Unicode Keyboard Layout

Version 1.3

http://www.openroad.net.au/languages/african/igbo/

© 22006 State Library of Victoria

This keyboard was developed to facilitate typing text written in Nuer.

How to type in Nuer

The keyboard layout is a Unicode based keyboard layout for Tavultesoft Keyman.

Correct display of all Nuer letters should occur on all versions of Windows if an appropriate font is installed. Displaying Nuer requires Windows XP with Service Pack 2 installed. Nuer text will correctly display on older versions of Windows in Microsoft Ofifce 2003. For further information refer to http://www.openroad.net.au/languages/african/nuer/.
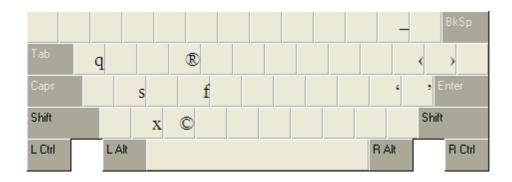

Normal

Shift

Right-Alt

Shift Right-Alt

Typing additional Nuer letters

To get:	ŋ	Ŋ	ɛ	Ɛ	ɣ	Ɣ	ɔ	Ɔ
Type:	q	Q	s	S	f	F	x	X

Typing diacritics

1. Macron below: type the vowel then the *semi-colon* key, e.g. (**a;** yields **a̱**)
2. Diaeresis: type the vowel then the *quote* key, e.g. (**a'** yields **ä**)

Fonts

The *Doulos SIL* font is installed with the Nuer keyboard layout. Additional fonts include:

- Charis SIL;
- Gentium.

For information on installing fonts in Windows XP, please read the MyLanguage font installation guide.
