Wai Wai Keyboard

This Keyman keyboard was developed for the purpose of typing the Wai Wai language. The Wai Wai Tribe is an Amerindian group in South America.

The keyboard utilizes the standard English keyboard and adds the ability to place a caret (^) over 12 specific letters. These letters are: â, ê, ĥ, î, k̂, m̂, n̂, ô, p̂, ŵ, x̂, and ŷ.

To type these specific letters with a caret (^) above them do the following:

1. Type the letter.
2. Type ^ .

The encoding of this keyboard is NFC.
